

# The Whole-Life Wheel

*A clear, honest snapshot of where you stand today — across nine dimensions of a whole life.*

---

Most approaches to feeling better focus on a single area — nutrition, or exercise, or sleep. But your life doesn't operate in isolated compartments. When one area struggles, it quietly pulls the others down with it. When one area flourishes, it lifts the rest.

*"You can't change what you can't see. The Wheel helps you see."*

The Whole-Life Wheel is the foundational assessment used in every Clarity Into Momentum coaching program — Clear. Focused. Forward., Momentum, and The Whole-Life Rebuild. It's the same tool you'll revisit throughout coaching to track real movement over time.

## How to Use This Assessment

---

For each dimension below, rate your current satisfaction on a scale of 1 to 10 (1 = deep dissatisfaction, 10 = thriving). Mark your number, then answer the reflection question honestly — the value of this tool lives entirely in your candor.

*How would you describe your relationship with money in one honest sentence?*

## Reading Your Results

---

1. **Find the gaps.** Which two or three domains scored lowest? That's not failure — that's information.
2. **See the connections.** Look at your lowest and highest scores side by side. How might one be quietly affecting the other?

3. **Identify the highest-leverage domain.** If you only moved one number this season, which one would lift the rest the most?

4. **Name the surprise.** What's one number that surprised you, once you actually wrote it down?
